

*Let us grow together*

## **Rashtriya Chemicals & Fertilizers Limited**

### **E-WASTE MANAGEMENT POLICY**

*We, at Rashtriya Chemicals and Fertilizers Limited, firmly believe that effective and efficient management of all the E-waste generated is essential for protection of environment and conservation of natural resources. All the E-waste generated in our organization shall be disposed off fulfilling all the legal and other requirements in environmentally responsible manner.*

*We shall achieve this through:*

- Dealing with vendors of electrical and electronic goods having sound E-waste management policies and who have registered collection center / E-waste recycling facility to take back old equipment.*
- Extending the useful life of electrical and electronic assets to the extent possible for minimizing generation of E-Waste.*
- Environment friendly disposal of E-waste through E-waste recyclers / dismantlers which are authorized by Ministry of Environment & Forests / Central Pollution Control Board or State Pollution Control Board.*
- Maintaining all the records of E-Waste generation and disposal thereof as required by Statutory and other requirements.*
- Making aware all our employees regarding impact of E-waste generation on environment and advantages of E-waste disposal in a scientific manner.*
